- Made **REST APIs** for an application for finding flatmates based on personality type.
- Built the frontend of the static website.

Tools/Technologies: HTML/CSS, Bootstrap, Django, Django REST Framework

#### **PROJECTS**

# **CODECHEF JSSATEN**

- CodeChef JSSATEN is the official website for the CodeChef Chapter in my college.
- Currently, the website has been used by 300+ students in my college.

## **QUIZZIT**

- Quizzit is an online quiz application with questions, score and leaderboard.
- The application keeps a track of users participating in the quiz and maintains a well defined leaderboard.

# **GITSCRAP**

- GitScrap is a website that fetches details of a user from his GitHub profile.
- Used **GitHub API** to fetch data of the user from his username.

## **ADDITIONAL EXPERIENCE**

## **DEVELOPER STUDENT CLUBS, JSSATEN** (Feb 2019 - Present)

- Member of Google Developers program for university students.
- Contributed to projects as a Backend Developer and conducted and facilitated workshops and events in my college.

#### **CODECHEF JSSATEN CHAPTER LEAD** (Oct 2020 - May 2021)

- CodeChef College Chapters are the programming clubs run by chapter leaders and mentored by CodeChef.
- Organized and conducted contests and workshops on DSA with over 400+ participants in my college.
